Muhammad Junaid Amin

Web Developer

WORK EXPERIENCE

Fullstack Drupal Developer 10/2023 - present

Codeetechs I Faisalabad

Developed custom Drupal modules, seamlessly integrating APIs for external system interaction. Leveraging my profound knowledge of Drupal, I create captivating user interfaces that deliver extraordinary experiences, enabling the development of sturdy and scalable websites and applications.

Frontend Web Developer 11/2022 - 10/2023

Codeetechs I Faisalabad

Led front-end development efforts, ensuring the creation of responsive interfaces and optimizing performance across various projects. Implemented JavaScript frameworks in accordance with Drupal best practices to enhance functionality. Additionally, contributed significantly to projects by meticulously optimizing CSS and JavaScript, resulting in seamless and engaging user experiences.

Internship 5/2022 - 11/2022

Codeetechs I Faisalabad

Engaged in comprehensive code reviews and participated actively in debugging sessions to ensure the integrity and efficiency of project codebases. Played a pivotal role in the development of custom Drupal modules, leveraging PHP expertise to enhance backend functionality and address specific project requirements effectively. Additionally, collaborated closely with senior developers to contribute to the creation of dynamic front-end features, employing JavaScript and React to enhance user interactions and elevate overall project quality.
